

Paskins

There is an ancient Egyptian prayer that says 'may you enter favoured and leave beloved'

Paskins

has rather gone its own way. Not so much boutique, more eclectic, a 'green' Town House forging its own direction.

After checking in at the Art Nouveau reception you will find charming rooms all slightly out of the ordinary, each is individual in design and all very comfortable. Your tea, coffee or chocolate in the room will be fair trade or organic and the soaps and shampoos vegan, natural and not tested on animals.

Famous for being environmentally friendly this can be best sampled through the delicious breakfasts, prepared with mainly organic produce or sourced mostly from local farms.

The Art Deco breakfast room has a menu of celebrated choice; including a variety of imaginative vegetarian and vegan dishes, with many of the choices being home made.

Paskins is one of those enticing harbours you dream of when planning a trip; recognisable, slightly different, comfortable and feel good. It's the sort of place you leave thinking you will always want to return.
